WHAT WILL I LEARN?

Community First is running a course for Community Development Workers faced with the challenges of developing collaborative partnerships within rural communities. The workshops will take place over two days in March 2010.

The workshops will allow participants to build on their existing community developments skills but will also tackle and develop solutions to some of the barriers preventing successful parish partnerships.

At the end of the 2 day course you will have:

- Explored the options and benefits of collaborative working for organisations within rural communities
- Strengthened your partnership development skills
- Acquired some new practical tools and approaches
- Taken part in a recognised course funded by Capacity Builders under the Collaboration Benefits Programme
- Be able to run courses yourself which can generate income for your organisation

Delegates must attend both workshop dates to receive recognition under the Collaboration Benefits Programme.
